PATENT OFFICE NOTICES

Classification of U.S. Patents

The National Technical Information Service of the U.S. Department of Commerce has announced the availability of a new publication in microfilm format entitled "Classification of U.S. Patents" (Patent Office publication PAT 001.1–7306–M). This publication consists of a listing of all U.S. patents and related items in ascending numeric sequence together with the official U.S. classification of each patent, including both the original and all cross-reference classifications. It is offered for sale in the form of a 16mm negative reel microfilm in plain reels or reels packed in any of three types of cartridges.

The current edition lists all patents issued through June 30, 1973 and all reclassifications through December 1972 and includes "Additional Improvement" (AI), design patents (D), reissue design patents (RD), plant patents (PP), reissue patents (RE), patents issued prior to 1836 (X), reissue X patents (RX), defensive publications (T) and patents. It can be purchased in (1) individual reels ($6.00) or cartridges (three types, all $8.00), (2) a complete set of 18 reels ($74.00) or cartridges ($110) or (3) a partial set of the last 7 reels (12–18) in reels ($30.00) or cartridges ($44.00). See the detailed price table which follows:
